Education

San Diego State University – B.S. in Computer Science | Aug 2025 – Jun 2027

San Diego Mesa College – A.S. in Computer Science | Jan 2022 – Jun 2025

Skills

- Languages: Java, JavaScript, TypeScript, Python (basic), C++, Swift, Kotlin
- Backend & APIs: Node.js, Express
- Databases: SQL, PostgreSQL, MongoDB, Firebase, Realm
- Cloud & AI: AWS (EC2, S3), Docker, Ollama
- Tools: Git/GitHub, Linux, Jira, CI/CD fundamentals, Agile, VS Code, Xcode
- IT Support: Microsoft Office troubleshooting, system troubleshooting, software installation
- Frontend: React, HTML5, CSS3, Tailwind CSS, Bootstrap

Work Experience

IT Intern | Kugan & Associates, Inc | Feb 2023 - Present

- Maintained and updated student databases in Excel, ensuring accuracy and resolving file conflicts.
- Managed student registration and user accounts across training platforms.
- Tracked and analyzed expenses, preparing monthly reports.
- Supported Zoom sessions, troubleshooting connectivity and technical issues.
- Provided system troubleshooting including Microsoft Office support.

Projects

Coffee Study Spot Finder

- Built full-stack app using React and Python
- Integrated APIs, Docker, and AWS deployment
- Used Ollama for AI-based recommendations

Mini Universal Studio Simulation (C++)

- Developed theme park simulation using advanced data structures (AVL trees, hash tables, stacks, queues, graphs, heaps)
- Designed efficient data handling and system operations • Built GUI using ImGui with SDL2 and OpenGL3

iPhone Book App

- Built iOS app using Swift with Realm and MongoDB
- Integrated backend data access and search functionality

Additional

- LangChain for LLM Application Development – Coursera (Jan 2025)
